**'SEE OR SEARCH THE CLASS, SUBCLASS:**

265, for nonreactive mixing process.

286

**Electrical power generation or distribution system:**

This subclass is indented under 90.

Subject matter wherein the data processing system or calculating computer is designed for or utilized to measure and control the generation of electrical power or the distribution of electrical power through networks applicable in a power plant.

**SEE OR SEARCH CLASS:**

- 60, Power Plants, appropriate subclasses for power plant apparatus, per se.
- 310, Electrical Generator or Motor Structure, appropriate subclasses.
- 322, Electricity: Single Generator Systems, appropriate subclasses.
- 323, Electricity: Power Supply or Regulation Systems, appropriate subclasses.
- 324, Electricity: Measuring and Testing, 76.11- 157 for measuring, testing, or sensing electricity, per se.
- 363, Electric Power Conversion Systems, appropriate subclasses.
- 702, Data Processing: Measuring, Calibrating, or Testing, 60- 63 for a data processing system designed for or utilized in the measurement of power parameters.
- 705, Data Processing: Financial, Business Practice, Management, or Cost /Price Determination, 7- 11 for operational research in a business environment and subclass 412 for cost /price determination for utility usage.

287

**Turbine or generator control:**

This subclass is indented under 286.

Subject matter comprising means for controlling a rotary engine actuated by a current of fluid such as water, steam, or air subject to pressure, or for controlling a machine that generates electricity.

**SEE OR SEARCH CLASS:**

- 60, Power Plants, appropriate subclasses.
- 323, Electricity: Power Supply or Regulation Systems, appropriate subclasses.
